

The [01/15/2019] attack (codename [Sword Swallower]) against [Computer Answers] occurred approximately (23) full cycle, earth-months BEFORE the [2020 Federal Data Breach] in [December 2020], and I believe it was committed by the [same group of people].

The [Sword Swallower] attack consisted of a [ransomware derivative] of [WannaCry] (developed by the [National Security Agency]), a [CVE/critical vulnerability and exposure], and a [DDOS/distributed denial of service].

[CVE-2019-8936]: a [null pointer dereference] from a [trusted source] caused the [NTP service] to crash.

While I spent a fair portion of time [attempting to contact the authorities] and [report my findings], what I have determined is that [many people are careless f***** morons]. That would include [Paul Pelgagalli].

Some of those authorities include:

[FBI Investigator] [Christopher Murphy]	[SCSO County Sheriff] [Michael Zurlo]	[NYS (various, Harriman State Campus Crimelab)]	[National Security Agency]
--	--	--	----------------------------

...as I have contacted [each] and [every single one of those agencies] since [01/15/2019].

[Pegasus/Phantom] is a [very dangerous spyware application] that is used to [target any smartphone] that is either an [Android] or an [iPhone]. The [program] allows [any remote party] to [monitor] the [user] of a [target device], [without raising the user's awareness].

It allows that [remote party] to watch everything the user [does], and [accesses].
Here is a [documentary] by [PBS Frontline] which covers the [Pegasus] version of the [program].

[Pegasus] is the non-US based version of the [program].
[Phantom] is the [same program], but is [strictly meant for targets within the domestic United States].

With [either program], a [malicious party] will have [access] to [all] of the [following criteria]:

- [browser history]

Attempted Murder /-----
/-----

Between the [01/15/2019] [Sword Swallower] attack, and [05/26/2020], my [business] had been [subjected] to a slew of [cyberattacks] that I have caught with either [Open Broadcaster Software], or my [Apple iPhone 8+].

The [cyberattacks] range from the [Sword Swallower] attack mentioned above, to the use of [Phantom] in another attack on [05/26/2020], codename [Sausage Lips].

In the [Sausage Lips] attack on [05/26/2020], (2) 25-30 year old white males used this [dangerous program] [Phantom] on my [Apple iPhone 8+] to [remotely monitor me] for [many months], and then they attempted to [physically murder me] outside of the [Catricala Funeral Home] while I was [recording them on video].

While I remain uncertain as to whether or not they were [Russian spies] or [members of local/federal police], I firmly believe they were in the process of [attempting to kill me] outside of [Computer Answers] and the [Catricala Funeral Home] between [05/25/20 2000 - 05/26/20 0130], and perhaps earlier on [05/23/20].

In the video I recorded, (1) of these individuals [checked his smartphone] after passing me near the [Boomer McCloud] plaza adjacent to the [Catricala Funeral Home]. It was at that exact moment that I believed the (2) white males who were [nearby, prowling me], had in fact [deployed this dangerous software to my device].

I was [able to detect this program] on the device [much sooner], though I didn't know what the [name] of it was. (1) of the [symptoms] of this [program], is that [the battery will misreport the remaining charge].

While it WILL [blow through the actual charge] about [twice as fast as normal], that is because it may be [broadcasting] as it is [recording/streaming]. However, I [recorded this entire video] with [1% battery left]...

Espionage /-----

/ Attempted Murder

Even though I was unable to [successfully extract that video] from my device after the [Sausage Lips] incident, that is because someone was [remotely applying interference to my device], whereby [preventing exfiltration].

I was, however, able to show that video to [NYSP Trooper Shaemus Leavey], as well as my son [Michael C. Cook Jr.], and my daughter [Anastasia J. Cook] on [05/27/20].

I can [prove] that [my device] was [subjected to remote interference], as I was able to [record this particular video] (2) days leading up to the attack on my [Asus Q504UA BIOS/UEFI v3.0] laptop (which was also subjected to remote interference).

In the video, I was [attempting] to [move/copy] the files [IMG_043X] from my [Apple iPhone 8+] to my [laptop] when a (2) [specific errors] occurred

1) [The device is unreachable]

2) [The device has either stopped responding or has been disconnected]

| 05/24/20 1341 | 2020 05 24 1341 | https://youtu.be/i88AJb_5zY4 |

In that video, I suggest that [Michael DeGioralmo] from [Team Tech] was responsible, however I no longer think that is the case, and I even suggest that the [police] were causing interference to my device, preventing me from extracting the videos from my device. When I say the [police], I don't mean [NYSP] or [SCSO].

Interactions /-----

/ Espionage

After recording that video, I continued to walk around the town of [Clifton Park/Halfmoon], and had an interaction with [Eric Catricala] at [1597 Route 9, Clifton Park, NY 12065] at about [19:15].

Our interaction consisted of a discussion about [Dwayne Coonradt] at [Computer Answers], as well as my mentioning of how [Bruce "Jiggletits" Tanski], [Kelly/Mindy/Lester Wormuth], and [Peter/Paul Amato], were being investigated, regarding [bank fraud] (which may have also been conducted with [John Hoffman]).

To be clear, I was not very descript about all of those names, as I had [additional research] to conduct, in order to formulate a [better hypothesis] regarding their possible LINK to the cyberattack at [Computer Answers].

However, here are some links that indicate [Bruce Tanski] (and/or) [Peter Amato] specifically.

USA-PATRIOT Act of 2001 /-----\

The [USA-PATRIOT Act of 2001], is a law that was passed in the wake of the terrorist attack of [09/11/2001], which is an acronym for [Uniting and Strengthening America - Providing Appropriate Tools Required to Intercept and Obstruct Terrorism].

It provides many [statutes] and [laws] regarding [electronic crimes], [federal investigators], [sophisticated terrorists trained to evade detection], [communication devices], [organized crime syndicates], [racketeering], and an assortment of [fraud] related crimes.

My hypothesis as of [05/19/20], was that many [national security programs] exposed in (2013) by former [NSA/CIA] (contractor/cybercommando) [Edward "Don't f*** with me, bro" Snowden], were being used by a [RICO/Racketeer Influenced Criminal Organization] to [commit criminal activities], rather than using them to [protect the citizens] of the [United States of America].

/-----\ R.I.C.O. /-----\

This "R.I.C.O.", consisting of [corrupt members of government] (particularly [law enforcement]) who are tasked with [fighting] the things that are specified in the [USA-PATRIOT Act], is instead using the [law] and its' [statutes], to [COMMIT] the crimes it is meant to protect people from, in order to [generate revenue]...

/-----\ Collusion /-----\

Further to that point, I began to believe there is [collusion] between [internet technology companies] such as: [Verizon Communications/Charter Communications], and [Russians]. Though to be perfectly clear, there's a LOT more going on than just THAT.

I'm going to discuss events between [05/19/2020] and [05/26/2020], by providing some [backstory].

/-----\ Snyders Restaurant /-----\

[Katie Snyder]: Pretty sure [Snyders Restaurant] used to belong to the family of a girl I went to school with named [Katie Snyder]. Her and her mother used to live at [10C Saratoga Drive] when we attended [Skano Elementary school], where [SCSO Deputy DJ Kuhn] was the [D.A.R.E. Officer].

[DJ Kuhn, left] [Super Duper Manager Guy 5000, right]

[Katie Snyder] was mad cool. So was her mom. Always went to her house and swung on the swing set, and I believe that her mom used to make us [peanut butter and jelly sandwiches], sometimes.

The road has since been renamed to [Halfmoon Circle], and [Katie Snyder] and I grew apart.

My mother used to bring me to [Snyders] for breakfast a lot, as well as [Bubbles], [Friendly's], and [Price Chopper] when it had a breakfast bar in the 90's.

[Snyders, old front entrance]

[Friendly's, post fire rebuild]

[Price Chopper, old Shoppers World style]

/ Cook's Deli / Snyder's Restaurant
/-----

[Jacks Oyster House]: 42 State Street - [Cooks Cafe/Deli]: 46 State Street

My uncle [Thomas Cook] owned a chain of deli's in downtown [Albany] that made literally the same food that they make at [Snyders], [Cooks Deli]. My uncle [Tommy], and my cousin [Tommy], and even [Jimmy Hollister] could literally [run that place by themselves].

Even former [Albany] mayor, [Jerry Jennings] would say:

"These (3) dudes could run that fuckin' restaurant by themselves... No question about it."

I worked at [Cooks Deli] for several months in (2003), and I've worked at numerous other restaurants. So, I know how to run a kitchen if need be...

I later worked at [Snyders] with my friend [Anthony Fiorino] a few years ago, for like a day or two.

The waitress lady got mad pissed that I walked out of the bathroom zipping up my fly, and apparently she and some customers saw that. Oh well.

I'll tell you [what looks a LOT worse] than [walking out of a bathroom with your fly not up]...

[Being investigated by the FBI] for committing [bank fraud], [defrauding investors], and [conspiring commit additional bank fraud] with [people] that [work] in the [bank], I.E. [Justin Belleville], or even [people] that [work] for the [Town of Halfmoon], I.E. [Melinda Wormuth, Peter Amato, & OTHERS...]

[Peter D. Amato] admitted [falsifying bank loan documents] for major projects

[\[https://www.timesunion.com/news/article/Tanski-named-as-co-conspirator-as-former-12541203.php\]](https://www.timesunion.com/news/article/Tanski-named-as-co-conspirator-as-former-12541203.php)

-----/
 \ Accomplices /-----/ Bruce Tanski
 /-----\

[Tanski] used [multiple accomplices], including [Melinda Wormuth], former [Town of Halfmoon Supervisor]. [Lester Wormuth] died about (14) years ago, and used to be the judge for the [Town of Clifton Park], in addition to roles at the [Town of Halfmoon].

As for [Justin Belleville], he is the guy who notarized my [Articles of Organization] for [Secure Digits Plus LLC] back around [October 2018], so that I could open my account or whatever.

Though to be clear, it was the [East Greenbush/Defreestville] branch that opened the account.

-----/
 \ Key Bank/KeyCorp /-----/ Accomplices
 /-----\

[Belleville], a guy that mysteriously handled [fraudulent accounts] or [basic fraud], stated on [April 15th, 2019], that he would "take care of the fraudulent activity on my account." when a bank teller and I were having a conversation about how I used to work in the [Enterprise Resolution Center].

That event took place in the [Clifton Park] branch on [Tanski's] property at [1703 Route 9]. My account had a balance of less than [\$30.00] on it- somehow it got marked with [fraudulent activity].

Guess who else I know that used to handle [basic fraud] that at corporate...? [Annie and Kyle Madden].

I worked at [KeyCorp] during the [FNFG] merger in (2016) on a contractual basis through [TEKSystems], and there was an [endpoint protection virus definition] with an [invalid (GUID) global unique identifier] that forced 100% of the computers in the enterprise to need an [immediate reboot], because it was caught by [System Center Configuration Manager].

-----/
 \ Microsoft /-----/ Key Bank/KeyCorp
 /-----\

The [Microsoft Corporation] knows that I am a certified professional, and that I am an expert at what I do.

[SCCM/System Center Configuration Manager] is a program that was made by the [Microsoft Corporation].

It is an arsenal of expertly crafted programs that were orchestrated and realized by [Michael T. "Cybercommando" Niehaus, Vice President of Marketing, Microsoft], among others.

So were the tools [Microsoft Deployment Toolkit], and [Business Desktop Deployment].

I've been programming with the [Microsoft Deployment Toolkit] since I started my company in [October 2018], as I was using it to deploy [Windows 10] to customer computers at [Computer Answers] in videos like this...

-----/ Microsoft
Organized Crime Syndicate /-----

I believe that [Bruce Tanski] works with people in an [organized crime syndicate] that were responsible for that attack against [KeyCorp] in (2016).

I also believe that [John Hoffman] works with this same [organized crime syndicate], and I also believe that [Mr. Pickett] from [Nfrastructure], another former employer of mine and an associate of my deceased father [Michael Edward Cook]... may work with this [organized crime syndicate] as well.

-----/ Organized Crime Syndicate
Nfrastructure /-----

[Daniel Pickett] may or may not work with this [organized crime syndicate], I'm uncertain.

It just looks [extremely convenient] that [Nfrastructure] had deployed all of the [Cisco Catalyst] switches and routers to all of the new [FNFG/Key Bank] branches that were either upgraded or migrated from [FNFG].

[Nfrastructure] also sold [Computer Answers] the [Cisco Aironet 1142dn] wireless access point back in late 2017. I configured it in [May 2018], and it [still had my configuration on it] in [May 2020].

I didn't find it much of a stretch to think that perhaps [785-3221 Jesse Pickett] written by my father in (1989) when [Jesse Pickett] and my father were attending [Hudson Valley Community College], and the endpoint virus definition with an invalid GUID, might have some [correlation]...

Computer Answers /-----

During that merger, [Matthew Roerig] my [former manager] at [Computer Answers] at [1602 Route 9, Clifton Park NY 12065], was [actively employed] by the [Nfrastructure Corporation] and told me that he was part of the team that was [physically deploying] the [switches/routers] all around the state (and even out of state, I believe) for [KeyCorp/FNFG], during [July-August 2016].

[Clifford Miller] is also another former [Computer Answers] employee, who once oversaw the [Business Solutions Expertise] department with [Donovan Lennon]. [Clifford Miller] ALSO worked at the [Nfrastructure Corporation], as well as implemented the prior iteration of the [networking infrastructure] that utilized [pfsense] and [Windows Server 2012] operating systems.

I used to work at [Nfrastructure] in (2010-2011), long before [Matthew Roerig], [Clifford Miller], or [Alex Meyers] did. Also, my father apparently knew [Jesse Pickett] before my father was murdered in (1995).

-----/ Computer Answers
Theodore Roosevelt /-----

During the week of [05/19/2020] and [05/26/2020], I started [writing] about [my suspicions] regarding the [numerous cyberattacks] that I had [detected], and even [recorded on video], as well as in person.

I came to the conclusion that whatever I was posting on my [social media/Faceook] account was [manipulating] somebody into [performing these attacks].

That's when I made a [conscious decision] to [start taking pictures], and talk about former [NYS Governor/President] [Theodore 'Friggen' Roosevelt].

He is, undoubtedly, [one of the most important presidents that ever lived].

He served as president of the [United States] from (1900-1908), and [this dude didn't play any f***** games].

He started the [Bureau of Investigation] (which became the [Federal Bureau of Investigation]), the [Food and Drug Administration], traveled to [Panama] to help hand dig the [Panama Canal], in addition to various other

[highly acclaimed achievements] in reference to [Sherman Antitrust/Monopoly] actions and legislations.

He had [asthma] when he was young, but was able to [outgrow] it by [living a strenuous lifestyle] and [working hard]. He was also an [avid writer/author], worked in the [Civil Service], as well as the [State Assembly]. He had a mentor that just so happened to be the [21st president of the United States], [Chester A. Arthur].

He had a famous quote that went like this... *"Walk softly, and carry a big stick."* He never finished the rest of that quote in [public]... *"...cause you never know when you might have to crack it over somebody's head, for lyin' to your f*****' face."*

Now, I don't know if that's [true]... But- if there's [anything] that [anybody] can say about [this dude] for [certain], is that [he] had a rather [low tolerance] for [bullshit]... and, [so do I].

The Week /-----

That's it for the [backstory], here's the rest.

Inconsistencies /

The Week

As an [investigator], one is supposed to [closely examine inconsistencies] in [any particular story].

Some of the exhibits are pictures of [Verizon] infractions throughout the town of [Clifton Park, NY].

Particularly the following...

Name	Size	ItemType	DateTaken	CameraModel	Dimensions	Description	
IMG_0447.HEIC	1.36 MB	HEIC	File	05/23/2020	11:59 PM	iPhone 8 Plus 3024 x 4032	Wood Dale Drive (1)
IMG_0448.HEIC	1.77 MB	HEIC	File	05/23/2020	11:59 PM	iPhone 8 Plus 3024 x 4032	Wood Dale Drive (2)
IMG_0455.HEIC	759 KB	HEIC	File	05/24/2020	12:00 AM	iPhone 8 Plus 4032 x 3024	Wood Dale Drive (4)
IMG_0505.HEIC	2.37 MB	HEIC	File	05/24/2020	07:10 PM	iPhone 8 Plus 4032 x 3024	Halfmoon Sandwich (1)
IMG_0506.HEIC	1.95 MB	HEIC	File	05/24/2020	07:10 PM	iPhone 8 Plus 4032 x 3024	Halfmoon Sandwich (2)

In each of these pictures, [it is extremely easy to see] that the [fiber optic cables] are [spooled] into a [splitter], and left [right on the ground] where they're [not supposed to be].

Normally, if a person is [driving a vehicle] and [exceeding a particular posted speed limit], a [police officer] may [pull that person over], and [issue them] a [motor vehicle infraction].

In this case, who the hell is going to [enforce the law] where the [communications companies] can

- [lie to the customers]
- [limit the internet speeds]
- [siphon the customers data], AND
- [sell the data they collect] to companies like [Cambridge Analytica]...?

[Nobody], that's who.

The [same exact concept] regarding [vehicle infractions] applies to [communications companies] that may be [restricting the sale] of certain competitive services (such as [Verizon FIOS]) to the [communities] or [places] where those [infractions] were [recorded].

So, [on an official basis]...? [They were not offering the service at all].

[On an unofficial basis]...? [They were offering it to selected, limited few communities (and/or) people].

Meanwhile, [Charter Communications] avoided having to [hold themselves accountable] for [falsely advertising their internet speeds] (which they continue to f*****' do), as well as the [information] that they [propagate].

^ That article is actually dated [05/25/2020].

Literally the same day that I went around recording pictures and stuff, talking about:

- 1) censorship,
- 2) mass surveillance programs being abused [PRISM]
- 3) people being misled and scammed
- 4) a serial killer that goes by the name "the Zodiac Killer"

...before someone using an advanced and dangerous program otherwise known as [Phantom], attempted to murder me.

Also happens to be the [same exact day] that [Derek Chauvin] murdered [George Floyd].

While that was [some] of my focus at the time, there are [a slew of other issues that I stumbled across].

[All of these pictures] were subjected to a [Man in the Middle] attack, where I had uploaded them to my [Google Drive] account successfully, however, a [Man in the Middle] removed them, after [Google] saved them to an incremental backup or something.

These pictures showcase the [Town of Halfmoon Town Hall], basically where [Melinda Wormuth] was the former [Town of Halfmoon Supervisor], and was a co-conspirator of [bank fraud] with [Peter Amato] and [Bruce Tanski].

But also, it happens to be where [Eric Catricala] just so happens to be a [Town of Halfmoon Town Council] member.

Is that [an additional coincidence] that I've detected...?

Yep.

At or about [05/28/20] or [05/29/20], I posted something on [Twitter] about how [those pictures] were [missing], and apparently someone on [Twitter] was able to inform someone at [Google], and then they [restored] the [missing pictures].

[What Eric Catricala reported to SCSO on 05/27/2020 about an event on 05/24/2020]...

Upon arrival, I was met by [Eric Catricala][1].

[Eric] stated that he responded to his [funeral home] on [05/24] at about [8:00] because an [alarm] was set off[2].

While inside the building, [Eric] heard a knock on the door[3].

There was a [male] not known to [Eric], wearing [tan pants] and a [blue and white checkered shirt][4].

The man who was later identified as [Michael Cook] told [Eric] that he needs to stop taking his computer to [Computer Answers] to have work done[5].

[Michael] told [Eric] that they put stuff on his computers so that they can track everything he does[6].

[Eric] told [Michael] that he does not use them anymore, and asked him to leave[7].

white out

[Michael] also spoke to [Eric] Catricala about [Bruce Tanski] being [investigated], and also mentioned something about [Lester] and [Mindy Wormuth], as well as [Peter Amato] regarding an incident where he funneled [\$60M] to [Bruce Tanski] to build [Kings Isle], but [Eric Catricala] preferred to have these details covered with white out.

end white out

Patrol checked the property with [Eric] for damage which yielded negative results.[8]

[Eric] is requesting periodic area checks of the [Catricala Funeral Home] located at [1597 Route 9], in the [Town of Clifton Park][9].

Patrol to follow up with [Michael] next shift[10].

[What actually happened]

I saw [Eric Catricala] arrive at the [Catricala Funeral Home] as I was walking down [Route 9] taking pictures.

I knocked on the door, and [Mr. Catricala] came to the door.

[Mr. Catricala] asked "May I help you...?"

I introduced myself:

[Me]: Hi, my name is [Michael Cook].

Do you have a moment or two...?

[Mr. Catricala] then continued the dialog with me.

[Eric] : Well, hello [Michael].

Uh, I have a moment to spare.

What can I do for ya...?

[Me] : Well, I used to manage the store across the street, [Computer Answers].

Do you still do work with them...?

[Eric] : It's been a while since I've gone there for service.

[Me] : Oh ok.

[Eric] : Why, is something the matter...?

[Me] : Well, I believe that the [owner of the business] is performing [illicit activities] and [hacking customers]. I know that the manager [Dwayne Coonradt] was [hacking software] and [selling it]. When they do that, they leave their customers susceptible to being [tracked] and [attacked] by [hackers].

[Eric] : Wow.

Nah, can't say that I've been there to have any work done recently...

[Me] : Alright.

[Eric] : ...anything else...?

[Me] : Yeah, are you associated with [Bruce Tanski] or [Mindy Wormuth]...?

[Eric] : Uh- not particularly...

Why...?

[Me] : [Bruce Tanski]'s being investigated.

I'd heard that [Mindy Wormuth] had something to do with the [Taekwondo] place over there.

[Eric] : Nah, they do their own thing.

I'm not involved with them.

[Me] : Alright.

Well, take care.

The conversation was not VERBATIM, however, [I did introduce myself] and [explain why I was there].

In the report that he had backdated (3) days later, [he eliminated most of the things we talked about].

We spoke for about (5) minutes or so, perhaps less.

And, the TIME at which we spoke was at about 7:15 PM, as it can be clearly seen by viewing the embedded HEIC file metadata, which includes when the pictures were taken, GPS coordinates, phone/device/camera type, etc.

But also, he attempted to merge the events of the conversation we definitely had at [05/24/2020 1515], with the events of [05/25/2020 2335] - [05/25/2020 2343] by having [Scott Carpenter], and [James Leonard] write a report (3) days after the original conversation.

To top it all off, I reported all of these things to [SCSO Captain Shelley Zeitske] on [05/27/21], but I truly think that the police only care about evidence when someone important asks them to do something with it.

0	MCCS	00:00:00	Gonna have a conversation with [Eric Catricala]... And there he is.
1	EC	00:00:12	Turn that fuckin' thing off right now.
2	MCCS	00:00:14	Why, whaddya gonna do...?
3	EC	00:00:14	Why, because I know who you are, you know who I am...
4	MCCS	00:00:17	Yeah.
5	EC	00:00:17	And I'm tired of your [bullshit].
6	MCCS	00:00:19	Oh- tired of [my bullshit]...?
7	EC	00:00:20	Yes.
8	MCCS	00:00:20	What exactly is [my bullshit]...?
9	EC	00:00:22	[I don't want to be on the internet].
10	MCCS	00:00:24	Well, [I don't give a shit].
			You like [slandered me] in a fuckin' record with uh- [Scott Carpenter] in [SCSO-2020-]
11	EC	00:00:31	I don't even know who that is.
12	MCCS	00:00:31	[003177]. Slander...?
13	EC	00:00:33	Who's- who's that...?
14	EC	00:00:33	Uh- it's a record from [Saratoga County Sheriffs Office].
			You contacted [James Leonard], right...?
15	EC	00:00:40	Alright, just, get out of my way...
16	MCCS	00:00:42	You reported an incident that occurred on May 24th, and passed off surveillance footage as being on the 25th.
			Right...?
			So, you wanna have a conversation, uh- I can, I can turn this this off, and we can have a conversation and we can f***** issues.
17	EC	00:00:55	You know what...?
			Get out of my way...

So I can leave this parking spot.

18 MCCS 00:01:01 You live on [Anchor Drive], right...?

Right next to uh- [Doug Bagely]'s grandmother...?

19 EC 00:01:05 You know what, I'm not answering-

I am not answering any questions.

20 MCCS 00:01:09 Ok you're part of the [Town of Halfmoon Town Board], right...?

21 EC 00:01:11 Yes I am.

22 MCCS 00:01:12 With uh- [Kevin Tollisen]...?

23 EC 00:01:13 Yes I work with [Kevin Tollisen].

24 MCCS 00:01:13 Do you remember the conversation we had on [May 24th- 2020]...?

25 MTG 00:01:17 Do you want me to call the cops...?

26 EC 00:01:18 I've had NO conversations with you. (← that's [bullshit] because of the [record])

I want you out of my way... so I can leave this parking lot.

27 DK 00:01:23 *shows me his badge* Move it.

28 MCCS 00:01:24 What's your name...?

pauses I know who you are, [DJ Kuhn].

29 DK 00:01:27 Yeah, you're right.

30 MCCS 00:01:28 Right.

You're the guy-

You used to be the [D.A.R.E. officer].

31 DK 00:01:31 The owner wants you out of here.

32 MCCS 00:01:33 The owner, ok.

Uh- well did you know that [Bruce Tanski], like, was investigated by the [FBI], and I told him about that on [May 24th]-

33 EC 00:01:40 I don't have anything to do with that.

34 MCCS 00:01:42 [2020]...?

I know, it's like-

35 MD 00:01:43 Sir, look at me.

I'm the manager of this place (← [Tony Fiorino] used to do your job, dude.)

You're disrupting my business... (← You're disrupting [my investigation])

I need you to leave.

36 MCCS 00:01:47 Ok.

37 MD 00:01:47 You can do this anywhere else you want...?

38 MCCS 00:01:48 What's your name...?

39 MD 00:01:49 ...I don't care.

My name's none of your business.

40 MCCS 00:01:51 Oh, it is, because I've been like-

How long have you owned this business...?

41 MD 00:01:54 I'm not owning it, I'm managing it.

42 MCCS 00:01:56 Oh, well, he told me that you're the owner. (← I [assumed] that)

43 MD 00:01:58 Well, yes, the owner DOES want you gone, because the owner told me to- if you came here-

44 MCCS 00:02:01 Just now...?

45 MD 00:02:01 ...to ask you to leave.

No, beforehand.

46 MCCS 02:02:00 Is his name [Bruce Tanski]...?

47 MD 00:02:04 His name IS [Bruce Tanski], yes.

48 MCCS 00:02:05 Yeah, well, I thought he sold it...?

49 MD 00:02:07 That does not concern me.

50 MCCS 00:02:07 But [Bruce Tanski] is a criminal.

51 MD 00:02:09 You can think of what you want, that's your opinion.

52 MCCS 00:02:11 Well, he was investigated by the [FBI].

53 MD 00:02:13 [Has he been convicted]...?

54 MCCS 00:02:14 [Yeah, he has]~!

55 MD 00:02:15 Is he not in jail, so...?

56 MCCS 00:02:17 Whether he's convicted or not, doesn't mean that he's [not guilty].

57 MD 00:02:19 Sir, you have (2) minutes [before I call the cops], and [you are taken away]. (← 00oo00ohhHh~!)

58 MCCS 00:02:22 Oh, ok.

59 MD 00:02:23 I am letting you know this, right now.

60 MCCS 00:02:24 Ok, (2) minutes.

 Recording it all...

 You're giving me (2) minutes to leave, right...?

61 MD 00:02:29 Yeah.

62 MCCS 00:02:29 I've been a customer here for about (35) years.

 I've lived in town since [1987].

 Ok...?

63 MD 00:02:34 Does that concern me...?

64 MCCS 00:02:35 I've known [Bruce Tanski]'s niece, [Elaina Tanski], since [Skano Elementary] when [he] used to be the [DARE officer].

65 MD 00:02:41 Does THAT concern me...?

66 MCCS 00:02:43 OooooOooOHhhh, it DOES have stuff to do, I KNOW the people in this fuckin' town.

67 MD 00:02:46 Sir...

68 MCCS 00:02:46 And when I like, start to have like uh- conversations with people, oh, well [Deputy Kuhn] is [Deputy Kuhn] issued my father, uh- a ticket-

69 MD 00:02:54 He's calling the cops, I'm just letting you know that. (← He showed me his badge)

70 MCCS 00:02:56 Ok.

71 MD 00:02:56 You have less than (2) minutes to get out of here, before the cops show up.

72 MCCS 00:02:58 But you gave me (2) minutes, it hasn't been (2) minutes yet.

73 MD 00:03:00 Yeah, I'm letting you know, (2) minutes before I call-

74 MCCS 00:03:01 Just because somebody [calls the cops] doesn't mean that there's an [incident] quite yet.

75 MD 00:03:04 No, but the incident-

76 MCCS 00:03:05 If you're telling me to leave because you're gonna have me [arrested for trespassing], [I'll leave] but [you gave me (2) minutes]. That was a minute ago.

77 MD 00:03:10 So what do we got, less than a minute now...?

 Perfect.

78 MCCS 00:03:12 [Mr. Kuhn]... Salute you, thank you for uh- you know, being the [DARE officer] when my [father] was [murdered] in [1995]... a [group of people] were involved in having [him] killed, and you're basically [consorting with- uh- Eric Catricala].

 I'm tryin' to tell people that [the cops] AND [HIM] committed a [crime] on [May 24th, 2020] and [May 25th, 2020] and the cops have been like, dragging their lazy dicks.

 And I know exactly where you used to live, and probably where you STILL live.

79 EC 00:03:38 So, what does that have to do with me...? (← The incident [began] near your business)

80 MCCS 00:03:40 Have a conversation with me outside of here, and I'll fuckin' make sure this [doesn't hit the internet].

81 MD 00:03:44 [Let's deescalate the situation], [Michael]. (← So, [he knows my name].)

82 MCCS 00:03:47 Deescalate the situation by saying 'OK, lets have a conversation'.

83 MD 00:03:50 Well, he doesn't wanna have one right now. (I can understand that, but...)

84 MCCS 00:03:52 Ok, well, basically that's why I'm making the record. (Not [now], nor [later])

85 MD 00:03:55 Has it been (2) minutes yet...?

86 MCCS 00:03:56 It has.

87 MD 00:03:58 Off of all of his property, too.

 The rest of the plaza as well. (← I don't think they can legally do that)

 Have a good day.

88 MCCS 00:04:07 What's your name...?

89 MD 00:04:08 I'm not telling you my name.

90 MCCS 00:04:10 Oh, ok well uh- I'm gonna be [releasing the video].

91 MD 00:04:12 You're not [releasing the video], if [I don't give you permission]...

92 MCCS 00:04:15 It doesn't matter, [I can release it, anyway]...

93 MD 00:04:17 Whatever you want.

94 MCCS 00:04:18 Ok.

95 MD 00:04:19 I don't care. (← Yeah he does.)

96 MCCS 00:04:19 Yeh.

97 MD 00:04:19 I'm just allowing you to know that you gotta be off the property, and thank you for staying off the property. Next time you are here, without permission from [me] or [Bruce Tanski], you will be [escorted off the property]. (← Better treatment than the [Golub Corporation])

98 MCCS 00:04:29 Ok, cool.

99 MD 00:04:30 Just letting you know.

 Thank you.

100 MCCS 00:04:31 Thanks, buddy.

101 MD 00:04:32 Have a great one.

102 MCCS 00:04:33 [Shove a dildo in your asshole] while you're at it.

103 MD 00:04:35 That doesn't really need to happen...

THAT is a [stupid fuckin' comment] you made... (← [Stupid], but [still pretty funny])

104 MCCS 00:04:39 Why, wha- what's gonna happen...?

105 MD 00:04:41 Nothin's gonna happen, but if you say somethin' like that ever again...

106 MCCS 00:04:43 [Shove a dildo in your asshole]...?

107 MD 00:04:43 ...on this property... you're gonna get thrown off. (← Never said that on the property)

108 MCCS 00:04:45 [Shoving your dildo]- [shoving a dildo in your asshole]...?

109 MD 00:04:47 Better keep fuckin' walkin'...

110 MCCS 00:04:48 Why, whaddya gonna do, [shove a dildo in your asshole], and walk away...?

Fuckin' call the cops on me and have [Michael Zurlo] fuckin' have me arrested for somethin' I didn't fuckin' do..?

Yeah.

That's what HE did.

111 MD 00:04:58 *wavin' hand around, unintelligible*

112 MCCS 00:05:00 Whatever, dude.

I'll find out your fuckin' name.
I'll find out your fuckin' name.

113 MD 00:05:04 You're not~!

114 MCCS 00:05:05 Oh, I'm not gonna find out your name...?

115 MD 00:05:07 No~!

116 MCCS 00:05:08 Oh, ok.

I will~!
I guarantee you I'll find out your fuckin' name.

And then, once I find out your fuckin' name, I'm gonna make a document that fuckin' like, puts him [DJ Kuhn], and him [Eric Catricala], and [you], all in the [same record] with [Bruce Tanski], because I've been [investigating] his ass.

-----/-----
Failed 911 Calls /-----/ Catricala - Tanski
-----/-----

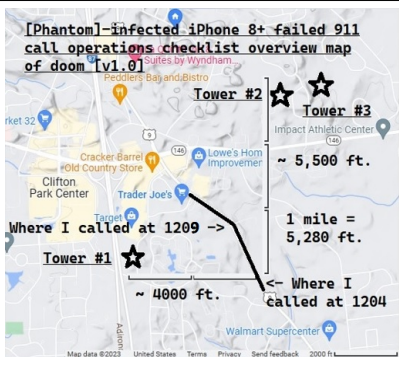

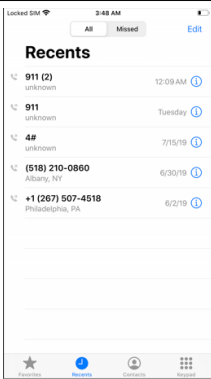

Now, it is [entirely possible] that [there is no correlation nor collusion] between [Eric Catricala] and [Bruce Tanski], however, [those who do not remember the past are condemned to repeat it].

Basically, [Eric Catricla] blatantly lies in the [transcription] and in the [video], when he said:
"I've had NO conversations with you..."

Yeah, you've had a conversation with me before, way back on [05/24/2020].
You called the police (3) days later to report the conversation that we had, in the ticket I referenced above.

Nothing suspicious or shady about that at all.

So, the dangers of programs like [Phantom], are that the [hackers], or the people [monitoring] a specific target device, they have the ability to prevent [emergency 911 calls] from completing.

They can do this [multiple different ways].
The first, is from the [actual device], like with [Phantom].

The second, is to disrupt the [radio waves] between the [device], [tower(s)], or [service provider(s)].
The third, is to compromise the [dispatch station equipment] or [staff].

So, if I go around [taking pictures], talking about [Bell Atlantic/Verizon Communications], and they have a mean look in their eye or a shitty taste in their mouth from me taking those pictures, or talking about [Sherman Antitrust/Class Action lawsuits], or a [Racketeer Influenced Criminal Organization], then what they could very well do, is assign [ME], or [my device] to a [blacklist].

-----/ Failed 911 Calls
Blacklist /-----
/-----

A [blacklist] is essentially a list of [items], [contacts], or [people], where any time they attempt to do or say something, they're quietly told to [fuck off].

So if I walk to the [200 McCarty Ave, FBI field office] like I did on [07/28/2020], and I ask to speak with an [investigator, like Christopher Murphy] regarding the events of [05/26/2020]...?

A guy at the front gate from [Paragon Security] is gonna ask me for my [identification].
I will hand the guy from [Paragon Security] my [identification].

He will look at it, and then call up to the office.
The person on the other end will talk with the guy from [Paragon Security].

[Paragon] : Hey, we've got a [Michael Cook] at the front gate, says he wants to [talk to an investigator].
[Them] : [Michael Cook] did you say...?
[Paragon] : Yeh, [Michael C. Cook].
 Date of birth, [05/24/1985].
 Client identification number, XXX-XXX-XXX
[Them] : Alright, hang on a moment.

That's when they [run a check] to determine whether or not I'm some [fuckboy], or if I'm on a [blacklist].

When they find me on the [blacklist], they will pretend as if I'm just some [fuckboy].

[Them] : Eh... that dude's basically a [fuckboy].
[Paragon] : Oh, he's a [fuckboy] did you say...?
[Them] : Yeh, nobody's ever heard of him around here...
 Not in THIS office. (← lying)

Then I will sorta hear half of the conversation, and interject...

[Me] : Ya know, they're probably gonna tell you that I'm just some [fuckboy]...
[Paragon] : *looks at me with a serious look on his face* Really...?
 So, he says that someone up there is gonna treat him like he's just some [fuckboy]...
[Them] : Yeah, he is one...
 It says it right here, [Michael C. Cook], total [fuckboy].
 Times 10.
[Paragon] : Wait, what says that...?
[Them] : The [blacklist] that does not have his name on it.
 Just tell him that we've got [everything we need], and [we'll be in touch].
[Paragon] : So, they say they've got [everything they need], and [they'll be in touch].
[Me] : I have [stuff in my possession] that incidates a [crime] occurred back in [May].
[Paragon] : *switches back to the phone* Dude says he's got stuff in his possession that incidates
 a crime occurred back in [May]...
[Them] : [Everybody] has [stuff in their possession] of a [crime] occurring back in [May].
[Paragon] : Uh- really...?
[Them] : Yeh.
 Tell that dude that we've got it all under control.
[Paragon] : Alright, thanks.
[Them] : Bye.
[Paragon] : Bye. *hangs up the phone*
 Well, they said that [everybody] has [stuff in their possession] of a [crime] occurring
 back in [May], so I guess that means [you're not that special]...
[Me] : I like, walked all the way from [Clifton Park], this is like the [second] time.
[Paragon] : Look buddy, we do the best we can with what we have.
 Good luck~!

Now, was that the [verbatim conversation]...?
No.

But I gotta tell ya, if someone is doing some [real nefarious shit] like [indiscriminately adding people] to [blacklists] left and right, and guys like [Bruce Tanski] can easily commit bank fraud with the likes

of [Town Supervisors] like [Melinda Wormuth]...?

You gotta start to remember situations where you may have [casually insulted] the likes of [James Comey], the former director of the [Federal Bureau of Investigation], that had a fucking [press conference] on [07/05/2016], and stated that [Hillary Rodham Clinton] was [extremely careless] with handling [classified] documents, and NOT [criminally negligent]...

...that maybe that is the reason why [some people become really important, rich, and famous], and [others don't].

So, if you manage to get yourself thrown onto a [blacklist], perhaps you're legally not even allowed to call [911 emergency services], because [it's just your opinion that you're in an emergency situation].

Conclusion /

/ Blacklist

That's why the [second amendment] exists.

Some people think that the [second amendment] is strictly meant for being able to [bear arms].

Well, that's just a [portion] of the [second amendment].

The [remainder of the amendment] says that [constituents] have the ability to form a [constitutional militia].

Really, you don't even need to call 911 for a god damn thing if you have the ability to walk around with a group of people that are [carrying weapons], otherwise known as an [army] or a [militia].

However, that's a bit of an [extreme], [worst case scenario]... like the manager at [Snyders] said...

"Let's deescalate the situation"... because there's a good chance that I'm [hyperbolizing] many of these details, for [comedic intent]... and an [agency] that is supposed to take a lot of shit seriously, maybe they don't have the same sense of humor, and [they remember everything].

But- if they are an agency that's supposed to take a lot of shit seriously, why do they continually prove themselves to be a bit of a fucking laughingstock...? For instance, if a [dozen girls] say that [Larry Nassar] or [Andrew Cuomo] are [molesting] or [sexually harassing] them...?

[Maybe they shouldn't ignore that], because [that's what causes people] to [start talking about things] like [this document]. But also, [making audio recordings] like this, [below].

| 07/29/20 | 2020_0729-200 McCarty Ave | <https://drive.google.com/file/d/1IHISY3w94uPiFnOAY68iISMYfe3w68S4> |

The conclusion I would like to make, is this.

I'm not going to call out an entire agency of people like the [Federal Bureau of Investigation] for a [couple] of [oversights]. Not unless those [oversights] are [extremely severe]. The [oversights] that I'm talking about, are the ones where [I've followed the logical processes below]...

If some [rich people] or a [group of immigrants] or [spies from Russia] had my father murdered by [Zontell Gordon]...
...and then those [rich people], [group of immigrants], or [spies from Russia] pass a slew of laws...
...and those laws essentially violate my rights, and other constituents rights...
...and then they add me to a [blacklist] for [ridiculous reasons] that don't need to be [verified/validated]...
...then what that means, is that [someone] thinks I'm fuckin' stupid...

Somebody is [declaring an act of war] on a [natural born citizen] of the [United States].

That's what [cyberattacks] like [Sword Swallower], and [Sausage Lips] mean.

Because, at the end of the day, what if everybody can just [pretend to be a dumbass], when they're actually not even [pretending], they just happen to [be] a [dumbass]...?

Then, that means [someone is playing games].
